

1. Does the County have a specific project in mind for this opportunity?  
**This opportunity is specifically the development of a logistics park located on parcel 2856-000 in Hamilton County. The scope shall consist of the development of an access road and other infrastructure to facilitate the buildout of the 57-acre parcel at the intersection of I-75 and SR-6 in Hamilton County. The project will also include the addition of turn lanes on State Road 6, and water and wastewater utility service within the planned development. Plans for this site include a logistics park and travel center with the potential for future manufacturing opportunities.**
2. If there is a specific project, what is the funding source and amount of the funding for the project?  
**The funding source is through a Florida Job Growth Infrastructure Grant in the amount of \$5,457,290.**
3. The proposal mentions there will be 2 firms awarded. Can you highlight what the division of work will be for the contract? **Two firms will not be selected, this was a misprint in the advertisement. One firm will be selected and will be responsible for the design of the entire project.**
4. **The RFP stated that the term for the contract would be for three years with possible extensions. This was also a misprint; the term for the contract will be for the life of the specific project listed above.**
